pentecostal theology in africa is a collection of essays that explore the theology of african pentecostalism from various vantage points the theological focus of the volume is timely as african pentecostalism though well researched is rarely given a thorough theological elucidation the book does not approach the issue of african pentecostalism in a systematic fashion but aims at explicating the theological implications of african pentecostal practices and beliefs the book is divided into two sections the first

deals with theological issues and the second with the more practical ramifications this volume is by no means the last word on this issue but hopes to make a contribution towards opening up more theological discourse in the study of african pentecostalism over against the historical empirical and anthropological

from the beginning of the movement until now pentecostalism has relied heavily upon its preachers preachers both old and young male and female ordained and lay educated and uneducated although preaching has been an important aspect of pentecostal life and practice few works have been written on pentecostal preaching and fewer still have been written from an academic standpoint this volume though not claiming to be comprehensive begins to meet the need for scholarly reflection upon this important topic in this multi authored work leading pentecostal theologians come together to construct a contemporary model for the theology and practice of pentecostal preaching the writers take into account pentecostalism s history theology ethos diversity and global expressions as they offer a distinctive theological vision for pentecostal preaching chapters include the following a pentecostal theology of the call to preach frank macchia pentecostal prophetic preaching lee roy martin the ecclesial dimension of preaching william kay the spirit preaching and the approach of jonathan edwards john gordy a new testament apologetic for women preachers john christopher thomas a theological apologetic for women preachers lisa stephenson african american women preachers antoinette alvarado latino theology of pentecostal preaching angel santiago vendrell transfiguring preaching proclamation and theosis chris e w green from proclamation to incarnation preaching worship and christoformation daniela c augustine bishop j h king and the theology and practice of pentecostal preaching tony moon technology and preaching leah payne a critique of emerging

in religious terms pentecostalism was probably the most vibrant and rapidly growing religious movement of the 20th century starting as a revivalistic and renewal movement within christianity it encircled the globe in less than 25 years and grew in north america and then in those parts of the world with the highest birth rates characterised by speaking in tongues miracles television evangelism and megachurches it is also noted for its small group meetings empowerment of individuals liberation of women and humanitarian concerns without the financial and military support of the state as was the case with communism it flourished in almost every conceivable socio political environment even in europe where religion most frequently appeared tired and out of date pentecostalism might draw large crowds or within mainline christian congregations flourish in a more muted charismatic form when these two forms are added together pentecostalism and neo pentecostalism are thought to account for around 450 million people william k kay outlines the origins and growth of pentecostalism looking at not only the theological aspects of the movement but also the sociological influences of its political and humanitarian viewpoints about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

the pentecostal hypothesis is the capacity to resist conventional wisdom in social actions on a daily basis pentecostals deploy or

enact this capacity through the use of the formula it does not make sense but it makes spirit in their decision making processes this is an alternate way of knowing that is keyed to a particular interpretative understanding of jesus christ as constitutive of and normative for the good decisions relevant to human flourishing the book offers a critical philosophical analysis of the social ethical implications of this hypothesis intended for private decisions and social actions this text is ultimately a critique of pentecostal reason in this book wariboko explores the epistemological dimensions of everyday pentecostal christology their interpretation of jesus s character and nature as epistemology for pentecostals jesus did not have an epistemology but the story of his life as a whole is an epistemology for them the validity of a truth claim is always informed by the story of jesus that claims them the story that gives them the meaning and courage to affirm their decisions without fear of being contradicted by enlightenment rationalism what kind of normative sway does this orientation to modernity have over pentecostals pattern of thought this book configures the response to this question with profound insights into the convergence of epistemology and christology within the impelling matrix of a provocative social ethics the epistemological in this book is not about the that of knowing but the how the performative dimension of knowing which is affective emotive and an embodied practice the pentecostal hypothesis is the capacity to resist conventional wisdom in social actions

robert menzies writing in the lucid moderate style for which he is well known skillfully explains pentecostal theology his answer for the uncertain and the confused is a skillful melding of sound hermeneutics solid exegesis and heartfelt testimony pentecost demonstrates that the pentecostal experience is by far the best twenty first century expression of luke s distinctive vision of the

spirit baptized church in mission this book is a heartfelt invitation for all christians to be open to a new filling of the holy spirit of jesus so he can continue to do immeasurably more for and through mere human beings than any of us can ask or even imagine

the pentecostal movement has been subject to some negative external assumptions in this enlightening and challenging book cheryl bridges johns argues that in fact pentecostals employ a powerful process of formation of catechesis which has enabled millions of believers to own and articulate the christian story she engages dialectically with the work of paulo freire a specialist in education among the marginalized as well as looking more broadly at the nature of all catechesis there is also an attempt to move beyond the rationalism found in a praxis epistemology

in to the ends of the earth allan anderson offers a historical and theological examination of the growth of global pentecostalism examining such issues as revivalism healing gender worship and globalization anderson seeks to show how the growth of global pentecostalism is changing the face of christianity as a whole

amos yong is the most prolific pentecostal theologian to date and his published works are so many that it is difficult to find an amiable entry point into his thought an amos yong reader is the first introduction to yong s theology in his own words it brings into one volume representative samples of the broad range of yong s scholarship including theology of religions religion and science theology and disability political theology luke acts and theological method christopher a stephenson perhaps yong s most insightful interpreter provides an introductory essay that both orients readers to yong s extensive theological program and identifies the most

important key to understanding yong's theology as his most neglected work spirit word community a book with implications far beyond the boundaries of pentecostalism an amos yong reader provides an overview of yong's thought and a starting point for more thorough study in any of the major themes in his expansive corpus

how does identity survive the passage of time how can we be sure that our church community in the present is a faithful representation of the originating community in the past this book explores how pentecostalism the world's fastest growing expression of christianity since its inception at the beginning of the twentieth century can identify as the same community that birthed the church in the first century a community that spans two millennia of church history presents numerous challenges which raise crucial questions in the case of pentecostalism these questions concern the criteria we might employ in order to recognize various instances of that community both in the present and throughout the past the pentecostal emphasis on the holy spirit as the founding force behind the early church suggests some exciting possibilities by bringing together pentecostal theology and hermeneutical philosophy this volume develops a model which attempts to discern the pentecostal spirit from within history rather than arriving at a historical survey of various theologies of the spirit this book instead advances a historiography which is itself inherently spirit oriented a pneumatology of history

despite the current impressive numerical growth of pentecostal charismatic christianity in africa there remain some concerns about the extent to which the church is making the desired impact in the public space as the church grows numerically the african continent is ironically plagued with many regrettable stories of corruption bad governance sexual abuse gender discrimination and

perversion environmental degradation robbery economic crisis leading to poverty and hunger wars and other social vices this paradoxical increase in vices alongside the demographic growth of the christian population on the continent has caused many to question the social impact of african christianity re visioning african pentecostal charismatic ecclesiology in the public sphere is a response to these observations the contributors to this volume who are made up of seasoned academics theological educators and missiologists and mission practitioners have engaged the subject from multidisciplinary perspectives highlighting significant contributions of african pentecostalism while pointing out critical areas for urgent attention the volume is intended to stimulate conversations around the church s mandate of influencing the public sphere as an agent of social transformation

this book deals with the problem of pentecostal traditioning traditioning has been ineffective thus far because the richness of pentecostal faith and experience has been inadequately captured in the classical pentecostal doctrines of spirit baptism and glossolalia a more adequate understanding of the key theological symbol of pentecostalism glossolalia emerges when it is interpreted in the light of christian spiritual tradition within this larger tradition glossolalia can be seen as bringing together both the ascetical and contemplative dimensions of the christian life chan thus explores the shape of pentecostal ecclesiology as traditioning community
